

XM radio is the best thing to happen to radio since FM. How can you regulate a pay service to not provide its paying and loyal customers what they deserve and ask for. The bullies who are trying to stop this are also trying to control the masses. Satellite radio gives the choices and selections the FM stations can not. Think of the people not your pockets when making this decision. You are stepping all over 1st amendment rights. Over 1 million people cant be wrong. YOU MUST REJECT NAB's PETITION 04-160. Let the paying customers decide what they want. This is not for the public how can it be decided by the public. Only XM has the ability to provide the content that expands minds and shares all aspects of the music scene that are available. FM only makes a joke of itself playing the same songs 5 times a day. XM is the greatest and they should be allowed to do what they want if their customers approve of it . It is NOT a government decision it is a business decision just the same as any business. LEAVE XM ALONE AND DO SOMETHING ABOUT THE IMPORTANT ISSUES FACING OUR COUNTRY. LEAVE THE PETTY THINGS OUT OF THE GOVERNMENT.
